

Technical Data Sheet

Product Profile

PRODUCT NAME: PPS-7100 Wax & Grease Remover

DESCRIPTION: PPS-7100 Wax & Grease Remover is a mild solvent-based formula designed to remove waxes, grease, dirt, fingerprints, and silicones from surfaces to be painted without leaving a residue or damaging the surface.

Instructions

- Use Wax & Grease Remover before and after sanding, and prior to painting.
- Wax & Grease Remover can be applied with a sprayer or a clean rag.
- After applying, wipe the area until dry with a clean, lint-free rag.
- Wipe the area with a tack cloth before painting to remove any dirt or dust.

Basic Information

GENERAL TECHNICAL DATA

Appearance	Clear Liquid
Shelf Life	One Year (unopened)
VOC	751 g/L
VOC %	100%
